

Japanese Barberry 'Rose Glow'

The Rose Glow Barberry is a very versatile shrub. It is a great shrub for beginner gardeners and can be used in a wide variety of ways to meet your landscaping needs. This beautiful shrub has red-coloured foliage. When new shoots start to form, the colours vary from spotted red to pink blotched foliage. The showy, variegated leaves change from purple to pink. The early spring brings little yellow flowers in clusters, the cool fall weather brings a vibrant red colour to the foliage with long oval-shaped red seed pods that stay intact throughout the entire winter.

Bee friendly and Deer resistant!
