

# 'Munstead Dark Red' Stonecrop

Sedum telephium 'Munstead Dark Red'

Lower, well branched and dense clumps, fleshy blue-green leaves are tinged red, upright growth to mounds 18" tall x 18-24" wide (can get a bit taller in optimum conditions). Loves full sun but can handle part shade. Dark-pink flowers from August through September, that stay pretty through out the winter.

Average to medium-dry moisture; soil, average garden soil, drier clay, sandy, rocky or shallow.
